ABOUT STONE BRICKS

We are the largest energy efficient and environment friendly brick manufacturer in Bangladesh. We have introduced most modern technology operated by an automated computerized tunnel kiln system. Production capacity of our factory is 3, 00,000 (Three Lac) bricks per day through three coal burn tunnel kiln.

We produce Automatic Bricks and going to produce Autoclaved Aerated Concrete (AAC) in future. Our Product is based on local/ imported raw materials. The product is essential item for civil construction which will develop the infra-structural facilities as well as industrialization and dwelling facility of the people of our country. This business initiative will also supplement our growing economy in implementing its Millennium Development Goal (MDG).

We are highly concerned about our environment and we are a Green Factory. We pollute nothing: no water pollution, no air pollution or no earth pollution. We strictly maintain compliance as per ADB requirements. It is an ADB refinance project.
